

Today's sticks and stones do more than break bones ...

... they incriminate.

Introducing ProStar's covert rock and stick cameras – two of the most powerful, yet versatile surveillance tools of their kind. Get the footage you need while minimizing your chance of getting burned on a surveillance. These hidden cameras each have their own unique features:

COVERT ROCK CAMERA

- Secure mobile hotspot
- Hidden HD camera
- Captures 60+ hours of streaming video
- Real-time internet accessibility
- Live and online in less than one minute

COVERT STICK CAMERA

- Hidden HD camera
- Captures 48+ hours of video
- Records on a standard SD card
- Selectable camera lens from 3.6 mm to 25 mm

ProStar's covert rock and stick cameras are designed to blend in with any surrounding, unnoticed – making this a must-have tool for every investigative professional. Please call **(248) 693-6077** or visit prostarservices.biz for more information.

Introducing the ProStar Covert Rock Camera

- SECURE MOBILE HOTSPOT
- HIDDEN HD CAMERA
- CAPTURES 66 HOURS OF STREAMING VIDEO
- REAL-TIME INTERNET ACCESSIBILITY
- LIVE AND ONLINE IN LESS THAN ONE MINUTE

It's the pet rock of today ... on steroids. The ProStar covert rock camera is one of the most powerful, yet versatile surveillance tools of its kind. Armed with over 66 hours of streaming video and its own secure mobile hotspot, this digital video recorder can be accessed from any computer in the world. Live feeds also can be downloaded within seconds of an event, eliminating the need to access a memory card on the device and minimizing discovery during a surveillance. The ProStar covert rock camera is designed to blend in with any surrounding, unnoticed – making this a must-have tool for every investigative professional.
